Confirmation of presentation

Confirmation of your presentation should be regarded as an undertaking that **the main author shall prepare and submit the following materials for the Technical Programme: a full manuscript and a presentation must be prepared**. These shall be included in the online Congress Proceedings and the [IAF Digital Library](#). **Each paper must be an original and unpublished work, not submitted for publication elsewhere** (issues related to copyright infringement and writing processes fall entirely under the responsibility of the authors; the authors are ultimately responsible and accountable for the contents of the work). The proceedings are published with ISSN; all IAC papers are indexed with SCOPUS and EI Compendex and will have an assigned **DOI number**.

Registration policy for IP presenters

It is **mandatory** that at least one author of each accepted paper attends the session and presents the work. Papers that are accepted will be included in the online congress proceedings and the IAF Digital Library **providing at least the presenting author completes registration (including payment) by 5 September at the latest**. Failure to register before the deadline will result in automatic withdrawal of your materials from the IAC programme and congress proceedings.

A single registration may cover up to **two (2) papers maximum regardless of the presentation format - oral or interactive**.
